Mr. and Mrs. Mimke Muennink,  
who spent Armistice Day in San  
Marcos, returned home Tuesday. The  
Journey to San Marcos was made in  
their car, but after returning as far  
as San Antonio they abandoned their  
car, owing to the inclement weather,  
and made their way home on the  
train. Mr. Muennink says fine rains  
fell in the San Marcos country.

Geo. H. Bendele, one of our veter-  
eran cow men, made his way through  
the mud Monday down to the print-  
ing office to make the editor's heart  
lighter and his pocket heavier by re-  
newing for the old reliable weekly  
and adding FARMING to his list of  
papers. We hope several thousand  
more cow men will emulate his ex-  
ample.

Contractor and Builder Alfred G.  
Brucks, who has made Hondo his  
home since his marriage about a  
month ago, paid this office a pleasant  
call Wednesday. Mr. Brucks is a  
new addition to the Anvil Herald's  
subscription list.

C. M. Licklider, an erstwhile citi-  
zen of Hondo but who for the past  
several years has made his home in  
Missouri, arrived here on Wednes-  
day afternoon's train.

Miss Annetta Droitcourt of Lacoste  
spent Saturday and Sunday here as  
the guest of her Uncle, County Treas-  
urer J. J. Droitcourt, and family.

Hondo got too wet for Merchant  
Hartman, consequently he has spent  
the greater part of the week in San  
Antonio.

Mr. and Mrs. Gus Batot and family  
from San Antonio were the guests  
of Mr. and Mrs. Felix Batot Saturday.

Mr. A. Albrecht was over from  
D'Hanis and returned home Monday  
evening. Sabinal Sentinel.

tended district court in Bandera this  
week.

The fourth Armistice Day anniver-  
sary was observed in Hondo by a  
general cessation of business and our  
people enjoying the day in various  
ways. Those sportingly inclined  
took active part in the calf roping  
and horse racing at Schmitt Field,  
while others passed a portion of the  
day there as spectators; those fond  
of the chase hid themselves to the  
chaparral in quest of game; others  
availed themselves of the opportunity  
to visit friends and relatives both in  
and out of the county, while others  
passed a restful day at home. At  
night the belles and beaux from ev-  
ery part of the county gathered at  
the Auditorium and passed the fast-  
flying hours in "faster-flying feet"  
in the mazy dance. Altogether the  
day was passed in a sensible and  
sane manner, and all returned to  
their occupations Monday morning  
feeling rested and refreshed from  
their brief respite from the moilome  
care of business.

Are we to have an invasion of  
grasshoppers? Hunters returning  
from various points in the county re-  
port myriads of these pests; in some  
places they are even becoming a men-  
ace to the range. While Medina  
county as a whole has never suffered  
seriously from grasshoppers, coun-  
ties west of us a few years lost  
heavily by damage to crops. The  
season is too far advanced to fear  
much now, but what will result from  
their presence next spring, when the  
eggs that are now being deposited in  
the ground hatch out, makes one  
rather apprehensive. It is to be hop-  
ed that these pests will not add to  
the troubles of our farmers another  
year.

Mrs. Regina Schmidt and daugh-  
ters, Misses Bettie and Georgia, and  
son, Overton, spent Armistice Day  
with Mr. and Mrs. Fritz Weber in  
the Utopia section. They returned  
home Sunday afternoon.

Mr. and Mrs. Earnest C. Martin  
of Pearsall passed through here last  
Tuesday on their way to the Rothe  
ranch to visit Mrs. Martin's mother,  
Mrs. Fritz Rothe.

Phone 91 for all kinds of hauling.

A marriage license was issued to  
Mr. Herman O. Lindeburg and Miss  
Minnie K. Saathoff Monday, Novem-  
ber 13th.

The Baptist people here have called  
the Rev. Mr. Brown from Knippa as  
the pastor of the Baptist church here.  
The reverend gentleman is attending  
the Baptist convention at Dallas, and  
it will probably be a week or more  
before he can take charge of the  
church work here.

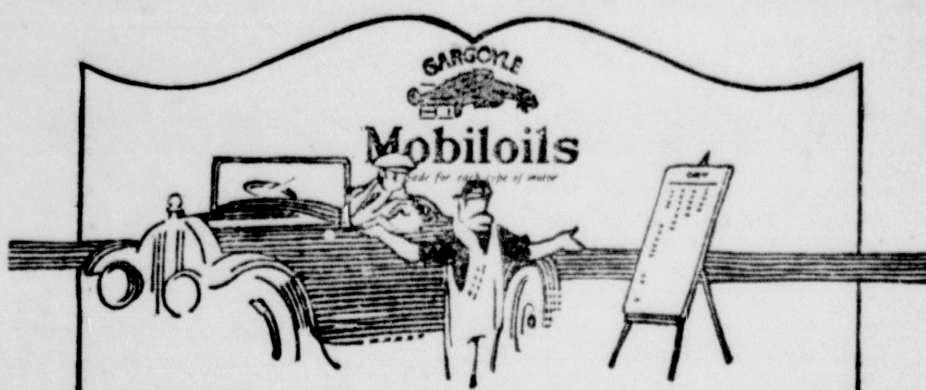

Sra. Juana Vasquez, charged with  
disturbing her neighbors, was up be-  
fore Judge A. M. Lamm Tuesday  
afternoon. Sra. Vasquez is rehear-  
ing the Pastores in the play usually  
given by the Mexican people at  
Christmas time. County Attorney  
Brown was here from Devine to re-  
present the State. After a patient  
hearing the defendant was acquitted.

His Honor, Judge A. M. Lamm, is  
waxing fat these days, and what  
makes him grin is that he is taking  
on avordupois independent of profit-  
teering-priced sweets. If there is  
anything that appeals to the Judge's  
appetite it is mulberry pie—and more  
mulberry pie. His trees are now  
ripening their second crop and he is  
living high, and that explains the ex-  
pansive smile that he now carries  
around with him.

Ed. Ingram was in town Wednes-  
day and was using a cotton stalk  
with about twenty practically ma-  
tured bolls on it as a quirt to urge  
his steed over the muddy roads. He  
claims he is developing a winter va-  
riety of cotton, but it is quite pos-  
sible the visit of Old Jack Frost,  
which cannot be much longer delay-  
ed, will act somewhat as a damper  
on his new endeavor. He says these  
bolls are the result of the recent rain.

And now P. H. Renken has joined  
the wind burners. A brand new  
Overland was delivered to him Tues-  
day and all speed records are now  
in danger.

Gus Batot and family autoed out  
from San Antonio and spent last  
Sunday with relatives and friends  
here, returning to the city in the  
evening.

## What Is Crank Case Service?

### JEST 'FORE CHRISTMAS.

By Eugene Field.

Father calls me William, sister calls  
me Will.

Mother calls me Willie, but the fel-  
lers call me Bill.

Mighty glad I ain't a girl—ruther be  
a boy.

Without those sashes, curls and  
things that's worn by Fauntle-  
roy.

Love to chawnk green apples an' go  
swimming in the lake

Hate to take the Castor oil they give  
for belly ache.

'Most all the time the whole year  
round, there ain't no flies on  
me.

But jest 'fore Christmas, I'm as good  
as I kin be.

Got a yeller dog named Sport, sick  
him on the cat;

First thing she knows she doesn't  
know where she's at.

Got a clipper sled, an' when us kids  
goes out to slide,

'Long comes a grocery cart an' we'll  
hook a ride.

But sometimes when the grocery man  
is worried an' cross,

He reaches at us with his whip an'  
larrups up his hoss,

An' then I laff and holler, "Oh, ye  
never teched me."

But jest 'fore Christmas I'm as good  
as I kin be.

Grandma says she hopes that when I  
get to be a man,

I'll be a missioner like her oldest  
brother Dan,

As was et up by the cannibals that  
live in Ceylon's Isle

Where every prospect pleases and  
only man is vile,

But Gran'ma she has never been to  
see a Wild West show

Or read the life of Daniel Boone, or  
else I guess she'd know

That Buff'lo Bill an' cowboys is good  
enough for me,

Excep' jest 'fore Christmas when I'm  
as good as I kin be.

And then old Sport he hangs around  
so solemn like and still,

His eyes they seem asaying, "What's  
the matter, little Bill?"

The old cat sneaks down off her perch  
an' wonders what's become

Of them two enemies of hern that  
used to make things hum.

But I am so perlitte and tend so earn-  
estly to biz,

That Mother says to Father, "How  
improved our Willie is,"

But Father, having been a boy hisself,  
suspicious me—

When, jest 'fore Christmas I'm as  
good as I can be.

For Christmas, with its lots and lots  
of candies, cakes and tops,

Was made they say for proper kids  
and not for naughty boys.

So, wash your face and bresh yer  
hair, an' mind yer p's an' q's,

And don't bust out your pantalons  
an' don't wear out yer shoes;

Say "Yessum" to the ladies and "Yes-  
ser" to the men,

An' when there's company for dinner  
don't pass yer plate for pie  
again;

But, thinkin' of the pretty things  
yer'd like to see upon the tree,

Jest 'fore Christmas be as good as  
you kin be.

Now, boys, you want to start early  
to think this over and be mighty good  
for a few weeks anyway, or Santa  
Claus will pass right by your roof.

It may seem early to you, but I can  
tell you Santa starts early.

### FARM LOANS.

The Hondo National Farm Loan  
Association, H. E. Haas, Secretary-  
Treasurer, Hondo, Texas, represent-  
ing 132 borrowers, with \$503,280  
borrowed, is prepared to make farm  
loans anywhere in Medina County  
under the Federal Farm Loan Act at  
5½ per cent interest and 1 per cent  
33 year amortization repayment  
plan. Nineteen thousand Texas farm-  
ers have taken advantage of this  
system of borrowing over fifty mil-  
lion dollars. Why not you? Former  
restrictions have been taken off and  
you may borrow for any purpose  
provided for in the Act, as a farmer  
only.

## RED CROSS JOINS IN MOSQUITO CAMPAIGN

Two Texas Communities Are Rid of  
Malaria After Year's Work.

Two communities in the South-  
western Division infected with malaria  
have been rid of this pest in the  
last two years by the work of the  
American Red Cross, according to  
statements made by citizens of these  
communities. One of these sections  
is around Culvert and Hearne, Tex.,  
where the Robertson County Chapter  
of the American Red Cross and the  
local health authorities worked hand-  
in-hand to rid the district of the  
malaria-spreading mosquito.

According to the official report of  
the work done in this district, the in-  
itial step in the campaign was the  
draining of all pools, ponds and depres-  
sions retaining stagnant water. This  
was done the first year. It required  
the opening of original ditches and  
other semi-engineering feats. Water  
impossible to drain was treated with  
crude oil at intervals during the sum-  
mer of 1921 and bodies of water so  
located as to be too expensive for  
draining or oiling were stocked with  
Gambusia Minnows, a local product  
found in prolific quantities in that  
section, which is a deadly enemy of  
the mosquito larvae.

Inspectors were employed and peri-  
odically visits were made in a house-  
to-house inspection. These inspectors  
looked particularly to rain water, ac-  
cumulations in open cans and other  
vessels, gutters, etc., and an offer ac-  
companied the inspectors, oiling all  
these waters. Particular attention  
was paid to old wells, cisterns and vats  
of various kinds. The results have  
been most gratifying. It is reported,  
and the mosquitoes are almost com-  
pletely eradicated from the locality.

A similar campaign in Cherokee  
County, Tex., had a similar result.  
During the early fall of 1921 a malar-  
ial survey of the county was made by  
the American Red Cross Chapter. A  
report was compiled and charts made  
showing the exact percentage of  
malaria infection in each school dis-  
trict. These findings were taken as a  
basis for the work, which has been ex-  
tensive since its beginning. Two san-  
itary engineers, a physician and two  
public health nurses are in charge of  
the work of malaria control, under the  
general direction of J. A. LePrince of  
the U. S. Public Health Service and  
Bureau of Child Hygiene of the Texas  
State Board of Health and the Chero-  
kee Chapter of the American Red Cross.

The campaign is too new as yet to  
report complete success, but gratify-  
ing results have been obtained and the  
malaria infection in that district is  
very much decreased over the con-  
ditions of the year previous.

## APPRECIATION BY GOVERNMENT OFFICIALS

Probate Attorney Commends Red Cross  
For Work Among the  
Indians.

William Simms, U. S. Probate Attor-  
ney, in charge of the Indian District of  
Oklahoma, has sent the following letter  
to the Southwestern Division, Ameri-  
can Red Cross:

"The activities of the Craig County  
Chapter, extending into Delaware  
County, Okla., have been of great val-  
ue. Mrs. Myra T. Earhart, executive  
secretary of the Craig County Chapter,  
accomplished more good for the Indian  
soldiers in the one day when she ex-  
tended her work into the adjoining  
county than has probably been done  
since the war.

"Mrs. Earhart and Mrs. Myrtle Gries-  
ham, the public health nurse of the  
Craig County Chapter, spent an entire  
day in Delaware County at my request  
and, believe me, those ladies had no  
time for recreation.

"Indian children were brought in to  
be inspected, weighed and measured  
and preparing the claims of disabled  
Indian soldiers was accomplished. These  
two women rendered such good  
service in this work that I am hoping  
that some day they will be able to get  
back to that county and furnish further  
help.

## EX-SOLDIER GETS PENSION AND INSURANCE

Through more than two years of un-  
winding of official red tape and other  
efforts the Red Cross of Waco, Tex.,  
has obtained compensation for per-  
manent total disability and govern-  
ment insurance for a veteran of the  
World War. This soldier was wounded  
in a peculiar way. A piece of shrapnel  
which tore away the muscles of his  
back and injured his vertebrae also ex-  
ploded his cartridge belt, thus inflicting  
an additional injury which required  
many operations and more than a year  
in the hospital, most of the time lying  
on his face.

The operations were not successful,  
the shock and other contributing causes  
caused heart trouble, all of which have  
made him a permanent invalid.

Through an error in his record, this  
soldier has been allotted only \$27 a  
month and it required more than two  
years to correct the error and obtain  
for the man the compensation which  
was his due, as well as to obtain for  
him and his aged mother the insurance  
which also was coming to him.

## A SAFE TEST

For those who are in need of a  
remedy for kidney troubles and back-  
ache, it is a good plan to try Doan's  
Kidney Pills. They are strongly  
recommended by Hondo people.

Mrs. X. Wantz, Hondo, says: "My  
kidneys were disordered for some  
time. A dull, bearing down pain  
appeared in my back which greatly  
increased until I had to give up. I  
couldn't stoop or straighten without  
severe pain. I saw Doan's Kidney  
Pills advertised at Martin's Drug  
Store. From the start Doan's did me  
good and I gladly recommend them  
to others." (Statement given May  
29, 1915.)

On May 3, 1919, Mrs. Wantz said:  
"I think just as much of Doan's Kid-  
ney Pills today as when I gave my  
former statement. The cure Doan's  
worked then has proven permanent."  
Price 60c, at all dealers. Don't  
simply ask for a kidney remedy—  
get Doan's Kidney Pills—the same  
that Mrs. Wantz had. Foster-Mil-

By reference to the election table reprinted in today's paper, one material change will be noted. As published last week, Earle B. Mayfield, candidate for the United States Senate, was credited with 807 votes, while the official count shows his total vote to have been 707 votes, or 100 less than as published last week. The only other change occurs with total votes cast for sheriff, Sheriff Bader losing one vote by the official count. Any one desiring to file the table away for future reference can now rely upon it being absolutely correct.

A. G. Walker is on the road to wealth, and will soon take his place in the plutocratic class, that is, if the price of livestock should take an advance, and he will owe much to his Jersey cow. This cow, possibly hearing the general complaint about the low price of livestock, concluded to offset that loss by giving birth to twin calves. Should she keep up this record it is possible we will have to look elsewhere for an ice and electric light man. What's the use of his working around greasy, contrary machinery while his cow is adding to his income tax?

Another good rain, amounting to .70 of an inch fell here Sunday night, being accompanied by the coolest norther of the season. The weather has been anything but ideal since then, a slow drizzle, just enough to keep the surface of the ground wet, being the brand of weather the weather man is dishing out to us. The country never looked prettier, and the farmers and all others are looking forward to another prosperous year as a result of the moisture that is now being absorbed by Old Mother Earth.

"Doc" Taylor and Morris Williams Forded in to the city Sunday morning on business and otherwise and spent the day there. Five miles out of San Antonio about 6:30 o'clock they picked up the rain and norther and brought same to Hondo with them.

# ROTHE IN DEMONSTRATION SERVICE.

private letter from Dr. H. H. brings the information that he recently accepted employment in demonstration Service and is located Monticello, Florida.

Rothe is a former Hondo boy, his friends among our readers glad to learn of his success.

Following clippings from the Hondo News show that he lost in getting "on the job":

## County Demonstration Agent Has Arrived.

H. H. Rothe, our Farm Demonstration Agent, arrived in the city today, coming over from Moultrie, Ga. He is well prepared for his position, being a graduate of the University of Georgia, and also from the University of Georgia, and has farmed five years, getting considerable practical experience.

Rothe is here for our good, and will get behind him and help him out.

## Hold Co-Operative Sale.

H. H. Rothe, County Demonstration Agent, wants to get in touch with those who have hogs, cattle, or sheep for market. It is his intention to have a co-operative sale at Hondo at the earliest possible date. Prices at this time of the year are low, therefore, it would be to market as soon as possible.

## [5 for \$1.55]— PUBLIC READY TO BUY REAL VALUE.

## More Prospects Closed Since and Makes Big Price Cuts.

There are many more prospective buyers of real motor car value at Hondo than even dealers had supposed, according to the Hondo News, local Overland dealer.

It is cited the public's interest in Overland's new low prices went into effect September 18. This car indicate that many buyers had just been for the latest value increase making their investment.

The all-steel body, real baked finish and large, strong wheels, are among the extreme features of the new low price which attract buyers.

There are new values on a popular car, and have added appeal of the latest price reduction of \$525 for Overland tourers.

It is now the only car sold at \$800 that has an all-steel body, real baked enamel finish, the only light car using a semi-floating rear axle, shafts that are removable, priced cars, without tear in the housing.

## [5 for \$1.55]— DATE CHANGED.

Due to the continued inclement weather the calf roping contest and pig scheduled for Biry has been postponed from November 20, to Thursday, Friday and Saturday, November 23, 24 and 25. All other arrangements remain the same.

# IN AN AUTO WRECK.

While Judge H. E. Haass was returning from the funeral of his aunt, the late Mrs. Gerdes, near Seguin, last Sunday evening about 7:30 o'clock, and when within about two miles of Castroville, his car was run into by a reckless driver coming from the west and was turned over and put out of commission.

Judge Haass was accompanied by his brother and wife, Mr. and Mrs. H. V. Haass, his aunt, Mrs. Joe Horn of Quini, and his cousin, Louis Gerdes. The bumper of the car hit the front running gear of the Judge's car and turned the left front wheel back under the car, at the same time tilting the car up on its right side. The occupants were considerably shaken up, but luckily none were seriously hurt. Mr. H. V. Haass received some painful cuts on the face and hands from broken glass, but luckily the cuts were not dangerous.

Mr. Andrew Halberdier, who was just ahead of Judge Haass, discovered there had been a wreck, hurried back at once, and assisted the party to get to Castroville. As it was dark and raining some of the party got wet before they could reach shelter.

The other car was able to proceed on its journey to San Antonio, where parties occupying the car reside.

## [5 for \$1.55]— DIED.

Mrs. Alma Gerdes died at the home of her son, Herman Gerdes, on the old homestead eight miles south of Seguin in Guadalupe County, Texas, last Saturday morning, November 11, 1922, aged 90 years and 3 months.

Deceased was the widow of Rev. Gerd Gerdes, deceased. She was born in Hanover, Germany, in 1832 and came to New Fountain, Texas, in 1854. In 1856 he married Gerd Gerdes; they moved to Guadalupe county on Elm Creek in 1871, which has since been her home. She is survived by two sons, Herman and Henry, and two daughters, Alice and Louise, also a half-sister, Mrs. John Wiemers, of New Fountain, and many other relatives in Medina and Guadalupe counties.

The funeral was held Sunday afternoon, Revs. Schuessler and Hamberg and others officiating.

Louis A. Gerdes and Mrs. Joe Horn of New Fountain, and H. V. Haass and wife and H. E. Haass of Hondo, nephews and niece of the deceased, attended the funeral.

C. W. Ahr spent Sunday with friends at Natalia.

Mrs. L. A. Koontz was a business and pleasure visitor in San Antonio Wednesday.

Dr. L. A. Koontz and C. S. Hellums were business visitors at Noonan and Natalia Wednesday.

Mrs. Howard Mangold of Noonan is very ill at the home of her parents, Mr. and Mrs. Henry Biediger, here.

Mr. and Mrs. Adolph Reyman and daughter, Miss Bertha, were visiting Albert Reyman at Laredo Sunday. Albert has joined Uncle Sam's Regular Army there the first of the year.

The Lacoste Oil Co. well on the Jungman place is making better and more showing every day. They are now a little better than 1,000 feet down. Everybody that has seen the well is greatly pleased with the good showing for a paying well.

Mr. A. H. Ahr installed a Delco light system at his residence here the past week. Mr. Ahr is the first man from here who equips his home with an electric light system. Anyone interested in a light plant, call on Mr. Ahr, who will gladly show you the plant, as he has the agency here.

Some young men and boys from here at a recent meeting decided to organize a basketball club. Although no regular officers were elected, they have cleaned up a cord and set up the goals. As soon as the weather permits they will commence practicing. They expect to be in trim within a short time to meet any team in their class for a game.

Mr. and Mrs. John Geiger and children from the North Side were visiting Otto Jungman and family Sunday.

Miss Annetta Droitecourt was visiting with J. J. Droitecourt and family at Hondo last week-end.

Mr. and Mrs. Tom Kirby from Atascosa were visiting here Sunday.

It is different than it used to be. Formerly in weather of this kind the farmer could not get to town during rainy spells. This week we noticed large trucks bringing heavy loads of corn to town just as though it had not rained for months.

## THANKSGIVING.

By Fletcher Davis.

Not for what men esteem as wealth,  
Nor yet the blessed boon of health;  
Not e'en for friends, though friends are dear,

And not the least of blessings here,  
Father, do I thank Thee!

Not for those things that man would please  
And might pamper his sordid ease;  
But for the toiling of the chase

And the swift running of the race,  
Father, do I thank Thee!

For the strength that knows no failing,  
For courage that knows no quailing  
In the face of opposing might,

But holds always to what is right,  
Father, do I thank Thee!

Not e'en for tasks already done,  
Not for the vict'ry already won;  
But for the cause that's just and right

And for the pleasure of the fight,  
Father, do I thank Thee!

The careful husbandman husbands  
his resources; beware selling the  
feed supply down too low.

The best safeguard to the South  
against the ravages of boll weevils  
is more and better livestock, and  
plenty of home-grown feeds to feed  
them on.

Some scientist has found out that  
the whale does not belong to the fish  
family but is a member of the bear  
family. That is what we call a whale  
of a bear story to be a fish yarn.

Becoming over-stocked is one of  
the most common dangers that be-  
sets the grower of any of the smaller  
domestic animals. Now, while prices  
are fair, is a good time to cull your  
flocks and herds.

When America spins more of her  
cotton and exports the manufactured  
article instead of the raw fiber then  
will we have less to fear from a Turk  
making faces at Johnny Bull. Like-  
wise, will we be less at the mercy  
of the cotton scalper at home.

The high price of hogs at this  
time and the shortage of corn as  
compared with the 1921 crop should  
make feeder hogs reach premium  
prices next spring. The man who  
can carry over young shots on rape  
and oat pasture should make a "kil-  
ling" next spring.

More attention to the development  
of purebred live stock, the improve-  
ment of farm crops and the advance-  
ment of the domestic arts and less  
attention to social blow-outs, with  
their attendant bickerings and heart-  
aches, and the questionable carnival  
stunts would go a long ways toward  
making our community fairs worth  
the hard money they cost the com-  
munities.

The Texas senatorial muddle  
should be making lots of votes for  
the Republicans in the doubtful  
states. Likewise it is creating lots  
of wholesome and well-founded dis-  
satisfaction with party machinery in  
Texas. Under present election laws  
parties are our masters and not the  
machinery of convenience they  
should be.

"The State University crowd is  
making propaganda for a three mill  
tax and now they are asking their  
Interscholastic Leagues to promote  
that propaganda by putting up that  
question as a debate topic for the  
league," says the Farm Labor Union  
News. "The rural schools are much  
more in need of a three mill tax than  
the State University as only five out  
of every hundred public school child-  
ren ever go to any college or univer-  
sity."

It seems that these United States  
is not the only spot where the people  
are being (mis) governed over-much.  
The Governor General of Canada,  
speaking of his own country, thus  
remarks apropos of our own: "But  
we are over-governed, we are over-  
spending, we have too much govern-  
ment in business and too little busi-  
ness in government, and we are  
placing upon the working capital  
of the country a burden of taxation  
so onerous and so excessive that all  
classes must be injured and the na-  
tional progress vitally retarded if  
the load is not made lighter by re-  
adjustment of the finances and avoid-  
ance of huge speculative projects  
which can wait for a more conven-  
ient season."

Having been prevented by law from  
palming off on a gullible public a  
conglomeration of tallow and cheap  
vegetable oils imported from the  
Coolies of the Orient as genuine,  
honest-to-goodness butter, a lot of  
"slick" folks have gone to doctoring  
up skimmed milk with this same kind  
of grease and supplying it to the  
public as "filled" milk. Whether  
they shall get away with it to the  
benefit of a lot of Chinese goober  
grabblers and to the injury of the  
dairy industry and the public health  
of America is being gravely debat-  
ed in Congress at the present time,  
with the probability of the side with  
the biggest money bags to finance  
propaganda winning out in the final  
shake-down.

"The millions invested by indi-  
viduals of very moderate means on  
the urgent appeal of smooth-tongued  
agents of bogus stock companies, will  
be sadly needed before we get back  
to normal conditions again. The  
only safe rule to follow is to shut the  
door in the face of every agent of  
any stock company until you have  
time to thoroughly investigate thru  
competent authorities. Never take  
the word of one of the hundreds of  
agents abroad in the land. Rural  
Maine is being scraped, as with a  
fine tooth comb, for the dollars saved  
by hard work and self-denial," says  
the Maine Farmer. "Hold on to your  
money no matter what the interest  
promised until you can prove the  
company safe under all circumstanc-  
es and this means far more than any  
highly colored poster or pamphlet  
or the word of any stranger. Get the  
facts from reliable bankers before  
investing and loss will be minimized."

"We think of Thanksgiving in harvest  
time;  
In the yielding, gathering, golden  
time;  
When the sky is fringed with a hazy  
mist,  
And the blushing maples by frost lip  
kissed;  
And the barns are full with the har-  
vest cheer,  
And the crowning, thankful day  
draws near."

—Rose Hartwich Thorpe.  
Gratitude is an inherent attribute  
of the normal human heart.

The normal human being is always  
grateful for favors bestowed.  
And out of the sense of gratitude  
comes the spirit of thankfulness!  
But with all this, in the morn and  
the toil of our every day vocations,  
we are liable to forget to render to  
the Giver of all good and perfect  
gifts that homage of praise and  
thankfulness that the creature owes  
to his Creator.

It is therefore meet and proper,  
"lest we forget," that a day be set  
aside once a year as a day of thank-  
sgiving and praise.

And what more appropriate time  
could be fixed than "the yielding,  
gathering, golden harvest time?"

The seed time, with its hopes and  
its promise, is passed.

The summer toil is ended.  
And the harvest time has poured  
its abundance into our waiting laps.

Then it is that we find the time  
ripe for thanksgiving and praise for  
the goodness and mercy that has fol-  
lowed us through all the days of the  
year and crowned our labors with  
the blessings of abundance.

Custom has fixed the last Thurs-  
day of November as the time for this  
out-pouring of thankfulness.

"However flowerless the ways  
Of grim November,  
However dull and drear her days,  
We should remember  
One happy time she sets apart  
For royal living,  
A gift to cheer and bless each  
heart—  
It is Thanksgiving!"

The historic traditions of Thanks-  
giving Day in America read like ro-  
mance.

In the bleak winter of 1620 a band  
of Pilgrims "moored their bark on  
the wild New England shore."

Before the blasts of another winter  
drove the remnants of that sturdy  
band to shelter "a harvest feast of  
Thanksgiving" was held by the sur-  
vivors.

From that beginning, in November  
1621, more than three hundred years  
ago now, in that struggling pioneer  
village on the bleak New England  
coast, has grown an annual custom  
that is observed throughout the vast  
expanse of these United States by  
more than a hundred million people.

And so, to quote an unknown  
author—

"This is Thanksgiving Day. Its  
observance ought to be in the best  
sense religious. And it might be  
well to this end to review the feel-  
ings and emotions with which we ap-  
proach it. Much of our thankfulness  
may be purely selfish. There are  
some with whom things have gone  
well this year. The family circle  
has remained unbroken. No wasting  
sickness has come into the home.  
Prosperity has left its blessings. The  
table is laden with plenty. There is  
meat in the larder and grain in the  
storehouse. Because of these things  
they imagine they are grateful; but  
such gratitude is of the essence of  
selfishness. It is dependent upon ex-  
terior conditions. It finds its basis

in circumstances. It draws its in-  
spiration from clear skies and smooth  
sailing, and hence it is fitful and  
evanescent as the alternations of sun-  
light and shadow. If these condi-  
tions of personal comfort and pros-  
perity are in themselves the ground  
of thankfulness, where in the hour  
of adversity shall we find occasion  
for rejoicing? The record of the  
past has its graver side. There have  
been pain and losses and disappoint-  
ments and bereavements and heart-  
aches. Where in these things is  
there reason and ground for grati-  
tude? Has the empty larder, the  
bare table, the desolate home, the  
vacant chair, the fresh mound in the  
cemetery, no place for thanksgiving?  
Ah, just here is the point of stum-  
bling with many an earnest soul. We  
find in the bitter chill of adversity  
the true test of our gratitude. And  
that is true gratitude which, triumph-  
ing over conditions merely physical  
and external, finds its ground of  
thankfulness in God Himself. It is  
independent of circumstances. It  
goes beneath the surface of life,  
whether sad or joyous, and founds  
itself upon God."

So, in this gladsome Thanksgiving  
season, this harvest time of the year,  
let us be not content merely to draw  
our horde of material blessings about  
us in lip praise; let us rather garner  
to our souls those richer gifts of  
spiritual peace, of soul-contentment  
that, out of whatsoever travail we  
have suffered, has brought us nearer  
to at-onement, to harmony with the

purpose of the giver of all good and

song:

"We thank Thee, O Father, for all  
that is bright—  
The gleam of the day and the stars  
of the night,  
The flowers of our youth and the  
fruits of our prime,  
And the blessings that march down

"We thank Thee, O Father of all, for  
the power  
Of aiding each other in life's darkest  
hour;  
The generous heart and the bountiful  
hand  
And all the soul-help that sad souls  
understand.

"We thank Thee, O Father, for days  
yet to be;  
For hopes that our future will call  
us to Thee.  
Let all our eternity form, through  
Thy love,  
One Thanksgiving Day in the man-  
sions above."

## Real Independent

THE DECEPTIVENESS OF PRICE.  
One of the most deceptive things  
with which man has to deal is price.

The laboring man strikes for high-  
er wages, wins, and goes back to his  
job thinking he has sold his labor at  
a better price.

Then he takes his pay envelope and  
proceeds to liquidate the rent, the  
taxes, the grocery bill and what-not  
and he finds the price of these have  
advanced more rapidly than have his  
wages and "his last state is worse  
than the first."

So it is with the farmer.  
Unless he can sell his products for  
a price that will enable him, out of  
the proceeds, to purchase more of  
the things he needs than he could  
buy before, an increase in prices of  
farm products is liable to prove  
worse than "dead sea fruit on his  
lips."

It is the "exchange value," the  
quantity of needed products one's  
commodities will exchange for on a  
fair basis of trade the one for the  
other, and not the money it will  
bring that is the real measure of its  
price.

Taking the prices of 1913 at 100 as  
a basis, figures recently compiled by  
the Federal Department of Agricul-  
ture show that even with the demor-  
alized market conditions of 1914  
the purchasing power of farm prod-  
ucts—expressed in terms of other  
products—was at the peak of 112  
per cent.

These "exchange values" fluctuat-  
ed from this point to as low as 89 per  
cent in 1916 back to the peak of 112  
again in 1918.

Then it began going down and  
dropped to as low as 62 per cent in  
November and December, 1921,  
when it began to rise again and ad-  
vanced to 76 per cent in March.

From that date it began to decline  
steadily and had dropped back to  
72 per cent for the month of June  
just past.

It is to be but little doubted that  
the market rush will accelerate this  
decline until the rush is over, and the  
farmers' only protection lies in sel-  
ling only on a steady or advancing  
market and clamping the lid on when  
a falling market develops.

## OVER-GOVERNMENT.

Whenever we have occasion to look  
through the list of offices and bureaus  
at Washington and consider the ex-  
tent to which government now in-  
spects, regulates and directs private  
business and private affairs or is ur-  
ged to do it, we fall to wondering  
what our wise and long-headed fore-  
fathers would have thought of it all.  
One of the chief causes of their re-  
volt against Great Britain was the in-  
quisitions and restrictions of the roy-  
al government. "He has erected a  
multitude of new offices," says the  
Declaration of Independence in enu-  
merating the grievances of the colo-  
nists against King George, "and sent  
hither swarms of officers to harass  
our people and eat out their sub-  
stance." When the fathers drew up  
our Constitution they were jealous of  
the power of the central government  
to interfere in local affairs or to re-  
strict the liberty or the personal re-  
sponsibility of the citizen. They  
were probably somewhat too solici-  
tous about the matter, for the ten-  
dency for at least a century has been

to increase the authority of the cen-  
tral government; but we often won-  
der if that tendency has not gone far  
enough.

It is true, of course, that the "new  
offices" of government have been es-  
tablished with the consent of the  
people, and many if not all of the  
extended activities at Washington  
have their excuse in the desire of  
well-intentioned persons to use the  
great powers of government either to  
establish justice and uniformity  
throughout the land or to aid in ex-  
tending and improving the industries  
by which we live. But granting all  
that, is there not danger in depend-  
ing too much on government and in  
too greatly restricting the right of  
personal initiative? Carried to its  
logical issue the present tendency  
will make this country the most gi-  
gantic bureaucracy ever known, with  
millions of public officials withdrawn  
from productive work and supported  
in their wasteful supervision of ev-  
eryone's business by the labors of the  
rest of the people, among whom per-  
sonal responsibility and self-reliance  
will largely have been destroyed.

A bureaucracy, however efficient  
for the moment, is almost the worst  
kind of government, for it lays the  
people under staggering taxation and  
finds a thousand ways to hamper and  
exasperate private enterprise. What  
our people need in order to recover  
their prosperity and to gain a fresh  
inspiration of courage and vigor is  
neither codding nor discipline from  
Washington, but hard honest work  
under conditions that make work a  
joy and a builder of character and  
intelligence. In making the national  
government a schoolmaster and a dis-  
ciplinarian we run the risk of turn-  
ing our free American citizens, who  
know their rights and enjoy their re-  
sponsibilities, into something like  
school children, docile or not, as the  
case may be, but certainly under the  
kind of compulsion and direction that  
is suitable only for the immature.—  
The Youth's Companion.

## WILL THEY DARE?

The American Economist, official  
mouthpiece for the protection petted  
industries of this country, says:

"If ever a Ship Subsidy Bill is to  
be put through it must be at a time  
when a vast Republican majority is  
available and undeterred by fear of  
being defeated for re-election."

The Economist bases this assur-  
ance on the presumption that before  
another two years roll around, and  
bring another election, a scheme for  
distracting the minds of the people  
from the issue involved can be hatch-  
ed up, for it frankly says it "will be  
displaced by newer issues, more ab-  
sorbing, by the time another election  
day rolls around."

All this because it is announced  
that congress will be called back in  
extra session soon after the approach-  
ing November election to pass a ship-  
subsidy measure.

The Economist and President  
Harding may be correct in their pre-  
sumption that this ship subsidy steal  
can be thus easily put over the  
American people.

But it does not seem that after  
the way the soldier bonus was treated  
they would so soon have the nerve  
to dare to do this.

Will the American people stand  
for it if they do?

FOSTER AND CARTER'S FARM  
BUILDINGS.

This latest addition to the Wiley  
Agricultural Engineering Series, of  
which Professor J. B. Davidson is the  
editor, fills a long-felt need in agri-  
cultural colleges and among farmers.

Farm building problems have re-  
ceived more attention during the past  
decade than they did during the en-  
tire previous century. Conditions  
surrounding the American farm tend-  
ed to hold back the development of  
good farm buildings previous to 1910,  
but as the enormous losses were  
brought more forcibly to the atten-  
tion of the farmer, steps were taken  
to overcome them, with the result  
that surprisingly rapid progress has  
been made within the past ten years.  
Furthermore, the change of agricul-  
tural methods has greatly affected  
farm building problems. New types  
of buildings have been developed,  
new materials have come into general  
use, and new constructions have re-  
placed the old.

Foster and Carter's "Farm Build-  
ings" covers all the present practices  
of modern farm building construc-  
tion. It treats of the location, plan-  
ning, construction and repair of farm  
buildings, presenting the material in  
an order which makes it extremely  
practicable for use as a textbook for  
college students, a reference for  
secondary schools and a source of  
information for the farmer. While  
a course of study is not outlined, the  
teacher of farm buildings will find  
many problems which may be select-  
ed to fit any course.

It contains only the practical and  
simple phases of farm building con-  
struction, and presents them in a  
manner that makes them of use to  
the student or farmer as a source  
of information and guide in building.

The material was collected from  
various sources, and as both the  
authors, as well as the editor, have  
had wide experience as farmers, ex-  
periment station workers and teach-  
ers, it is not only authoritative  
throughout, but represents the latest  
practice in farm buildings.

Foster and Carter's "Farm Build-  
ings" contains 377 pages, 5 1-4 by 8  
inches, and has a wealth of illustra-  
tions. It is durably bound in cloth.  
Price \$3.00 net, and can be bought  
of the publishers, John Wiley & Sons,  
Inc., 432 Fourth Avenue, New York.

Who won the war? The dough-  
boy who crawled on his belly in the  
muddy trenches of Flanders thought  
he was winning it. His old dad over  
here, who lived on bread made of  
rice bran and took an extra help-  
ing of mustard greens in lieu of meat  
that the soldier boy might have bread  
and bacon to fill the belly he crawled  
on, thought he had a hand in winning  
it. But now comes a sleek fellow  
who made his thousands out of the  
war and tells us the biggest profiteer  
of the whole flock of profiteers—the  
Federal Reserve Banks—won the war,  
that without them we would today  
be paying tribute to the Kaiser in-  
stead of enjoying the beauties and  
glories of deflation! Oh, what's the  
use!

The Uvalde lodge is expecting a large attendance and the people of the county will co-operate with the local lodge in welcoming the visitors.

A barbecue dinner is on the program and other features that will be given later.

#### Opening Coal Mine.

H. Kilgore has leased his coal tract to W. P. Fry & Son of Burnett, and they have commenced to open it. The vein of coal is 30 feet below the surface and is nine feet thick. It is located right at the residence. From tests made a good coal as there is in Texas, giving out as much heat and burning to an ash with no shale. The shaft is now down 22 feet and digging out of coal will commence in a few days.

The prospect of getting the Medina county portion of the San Antonio road fixed grows brighter each day. The work is to be done by Medina county to meet the requirements of the State Highway Commission, which means it will be a first class piece of work.

Fletcher Davis of Hondo is giving the people of Texas one of the best farm journals in the South, Fletcher's Farming, and we are glad to note that he is building up a good patronage. It is published monthly and the subscription price is one dollar per year, and every farmer throughout this section should subscribe for it.

The first of the week Judge R. H. Burney granted an injunction to Mrs. Rosa Schuchart preventing hunting and trespassing on her ranch, which is in the edge of Bandera and Medina counties, near Medina Lake. The depredations have become so bad that the tame turkeys and live stock are killed on the premises—some accidentally, but much of it premeditated and pure cussedness.—Kerville Mountain Sun.

Gus Britsch came up from San Antonio Sunday to bring his son, Walter Britsch, who recently underwent a serious operation in a hospital there. The young man is somewhat improved, and his many friends hope he will soon recover.

Another harvest season has rolled around, and the time for settling up annual accounts is here. In making your settlements do not forget the paper. It costs money to run a paper and printers must have money or, like other people, go hungry. Call at the office and settle your account or remit by letter. Do not wait for a statement—but a statement will be mailed you if desired. Remember, time flies and a neglected subscription account mounts up fast and if allowed to run too long will surprise you with its size. So please wait no longer but pay up now.

Yours in grateful anticipation of an early settlement, FLETCHER DAVIS.

DEVINE NEWSLETS.

From The Devine News.  
Four Shallow Wells Put On Pumps;  
Others Drilling.

Dr. L. A. Koontz of Lacoste was a pleasant caller at our office Thursday afternoon, and will read the News. Dr. Koontz is interested in oil development in the eastern part of Medina county. He informed us that four wells in the Christilles field have been placed on pump and the Jungman well, in which he is interested, with other Lacoste people, is down 900 feet and a good producer is promised. This field is between Devine and Lacoste.

Henry Howard showed us a sample of the pecans taken from his old place at Black Creek, now owned by Wm. Rackley, from a tree which Mr. Howard said he planted 21 years ago this winter from seed almost identical with the sample shown, a fine large variety. The tree had about three bushels on it this year, Mr. Howard said. This shows that pecans will grow on upland here, unwatered, and that it will pay to plant them. Pecans are selling at 40 cents this season and are very scarce, we are told.

Attorney G. C. Morris spent Friday in Austin representing J. T. Ethridge of the Kincheloe Prairie School, near D'Hanis, in a case in which Mr. Ethridge was dismissed from the school by the County Superintendent, who was sustained by the county board, if we understand it correctly. Mr. Morris showed us the opinion of the State Superintendent, who found for Ethridge, claiming that his contract to teach was valid and sustained.

Mr. R. C. Gossett reports hail large enough to kill chickens at his place Sunday night, and some oat crops were battered up below town. Fortunately it did not strike the truck farms. A small rattle was noticed in town but no damage is reported. The heavy rain injured roads and streets.

Edison Company Orders Fleet After Thorough Test of Car.

Los Angeles, Nov. 4.—The Southern California Edison Company recently purchased five Overland Four touring cars and sent them to their plant at Taft, California, for the purpose of giving them a thorough test.

The instructions sent with the cars were "use 'em rough. Wreck them if possible in the hardest kind of service."

The company's mechanics, after about a month of grueling tests, returned with the cars to Los Angeles after putting them through the roughest use they could think of and reported that it was impossible to wreck them.

On the showing and after listening to the reports of their mechanics, the Southern California Edison Company ordered a fleet of the Overland Fours and are now operating 22 in all.

STUCK

Two doughboys had gone overseas with the firm ambition of saving their country but they were assigned to office work at Bordeaux and it seemed that the country was in a fair way to save itself regardless of them. There they sat and pounded typewriters while they dreamed of the trenches.

"Say," inquired one, looking up from his machine, "is there an 'e' on the tail end of the River Seine?"

"How the devil do I know?" snapped the other disgustedly. "I've never seen either end of it."

AUGUST KEMPE.

CARD OF THANKS.

I wish to acknowledge my great indebtedness to the voters of Medina county for the generous support given me at the recent election. The continued confidence reposed in me by the voters of Medina county shall be an incentive to serve them faithfully for the coming two years.

Gratefully yours,  
J. F. BADER, Sheriff Medina Co.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general strengthening tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 75c per bottle.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

Habitual Constipation Cured  
in 14 to 21 Days.

Our word for it!  
You'll never know how delicious  
Corn Flakes can be till you  
eat Kellogg's

Positively—the most joyously good any-time-corn any man or woman or child ever put in their mouths. Such flavor, such crispness! Such big sunny-brown Corn Flakes! How you'll relish a generous bowl—flavor most-to-overflowing; and a pitcher of milk or cream.

Never was such a set-out! Never did you get such a universal vote as there'll be for Kellogg's Corn Flakes! Big folks and little folks will say "Kellogg's please, mother!" Leave it to their mothers—and yours! Prove out all we say!
